

Welcome to the Beans Mapper FAQ's

Thank you for helping us solve the last one hundred feet
delivery problem.

Know The Icons & Status

Available for mapping

Location in your Job List

Map is pending approval

Map approved & Map approved and paid

No longer available (mapped by others)

Map rejected, attempt to submit corrective photo

Unknown location, and adding a complex not on our platform

Apartment Maps - Directory

Outside Location

Apartment directories can be found in front of the complex near the call box.

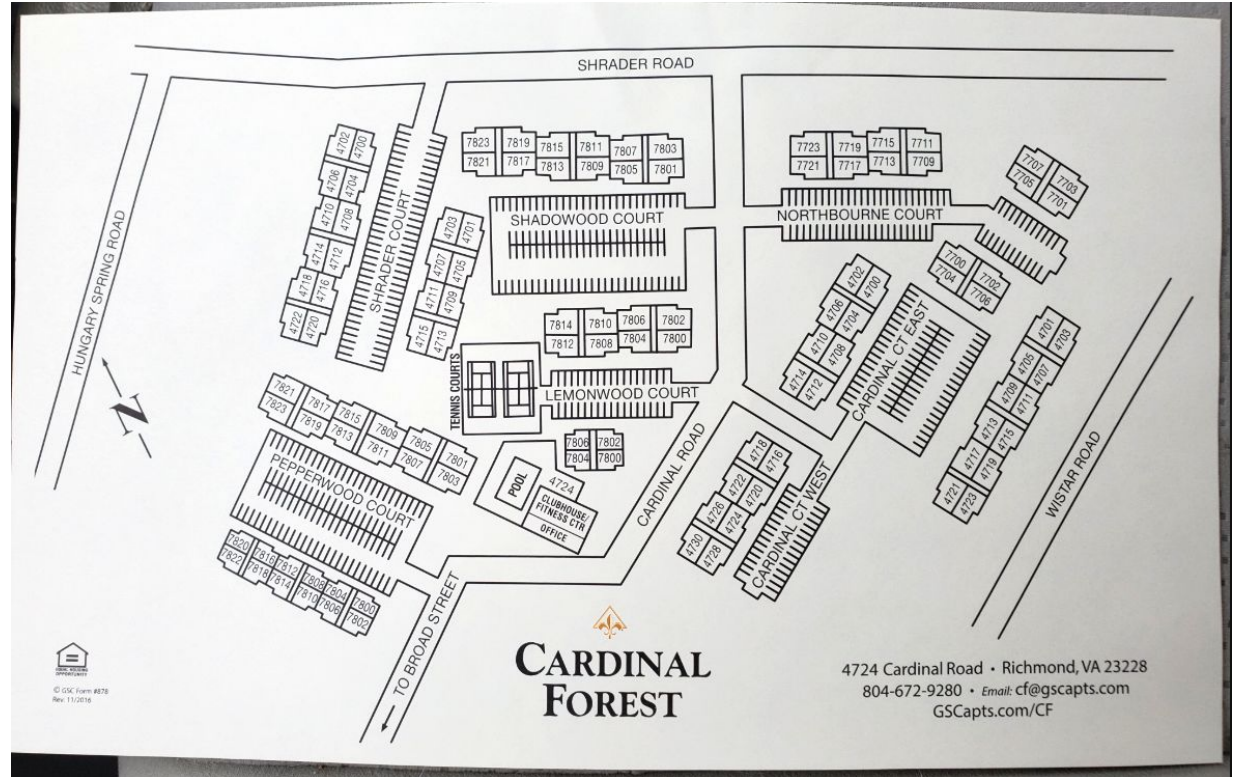

Or in front of the leasing office.

Apartment Maps - Paper

Inside Location

Apartment maps can be requested in the rental/leasing office from the office staff.

FAQ's

What we are paying for?

We are looking for Site maps for apartment complexes, mobile home parks, assisted living facilities and senior living communities.

How much will you get paid?

Our payout varies by state but is very competitive. In general we aim to help you make more than what you would be making with other delivery companies. When you download our app, you can see the payout per map in your area.

When will you get paid?

Our weekly cut off for uploading maps is Saturday midnight PST. We calculate and process payments on Sunday, which should hit your accounts on the following Monday/Tuesday.

How do you get paid?

The payments are made through direct deposit, using Bill.com. However, the first payment can be sent to your Paypal account. But we will need direct deposit to be set up for all the future payments.

What don't we pay for?

- Duplicate maps; we payout only once per map. So if someone has submitted the same one before, you won't be paid for it. Pins on the map signify previously mapped locations.
- Unreadable maps; map should be well lit, clear, centered and map should be easily readable.
- Online maps; maps downloaded from company websites or sent via electronic means.
- Wrong addresses; double check the address of the location before submitting to avoid this.
- Cut-off maps; make sure the entire map is in the picture and that some key information like street names, or corner buildings are not missing.

If you have additional questions, please contact Mark Escarcega at mark@beans.ai

Tips For Submitting Images

For Great Images:

- Well lit
- Centered
- Clearly readable
- Not blurry
- In-case of larger maps, submit multiple close-up images that complete the entire map

Common Mistakes:

- Low lighting
- Off centered
- Blurry
- Map too far away from camera
- Map is cut-off
- Map is not printed clearly
